Mark W. Townsend, Chief
HPV Chemicals Branch
U.S. Environmental Protection Agency

Dear Mr. Townsend,

The Dow Chemical Company received EPA's comments regarding the test plan and robust data summary for 2-Nitropropane (CASRN 79-46-9) and is pleased to respond. We have considered the recommended revisions to the test plan and IUCLID. We have revised our submission as indicated on the attached summary sheet. Included with this submission are a revised test plan and a revised IUCLID, sent to you in a series of three separate e-mails.

With this submission, The Dow Chemical Company has completed the required data set and believes the commitment for this compound to have been fulfilled. Additionally, the submission has been sent by FedEx to the address provided.
